BASEBALL TEAM
IS NOW READY

Strong Team, With Prospects
Of Better One.—Games
Begin October 6th.

Manager Metzler of the new Bisbee Miners base ball team will open the season at Don Luis park with Tucson October 6 with the following strong line up.

Burns, pitcher, Webb City, Mo. League team.

Shaner, pitcher, Webb City, Mo. League team.

Check, catcher Webb City, Mo. League team.

Olson, shortstop, Webb City, Mo. League team.

Pettigrew, left field, Hutchinson, Kansas, League team.

Wilson, right field, Hutchinson, Kansas, League team.

Sheffield, first base, Marfa, Texas, League team.

O'Malley, second base.

McDonald, third base.

Johnson, center field.

Cosgrove and Wyndar, substitutes.

Game will probably be arranged with Douglas and Cananea, and with the prospect of a fair degree of patronage Mr. Metzler promises to give Bisbee a ball team second to none in the southwest, as he has other high class men in line whom he can secure as soon as the patronage will justify it.

SUNDAY SCHOOL IS
ORGANIZED AT WARREN

Much Zeal For The Cause Is
Shown By Leading Citizens
Of The Neighborhood.

Under the most favorable conditions a Sunday school was organized at Warren last Sunday morning. Representative people from Warren and Bakersville were there to greet Mr. Kimbrough, the Presbyterian Sunday school organizer for Arizona, and several very encouraging and enthusiastic addresses were made. C. W. Van Dyke, manager of the Warren company, Colonel Shumaker, of the same company, and Hoyal A. Smith, the well known mining magnate, spoke about the necessary connection between a good town and the Christian religion. The remarks of the gentlemen were along the same line—that it always had been and still is the steadfast purpose of the organizers of Warren to maintain a clean town, to promote and encourage schools and churches and all that makes for the elevation of society.

The Sunday school was organized with Mrs. Wiley Fitzgerald as superintendent; C. W. Van Dyke, assistant superintendent; Mrs. Hazzard, secretary, and Mrs. Schumaker, treasurer.

Sunday school will be held at 10 o'clock every Sunday morning at the school house. It is planned to have regular church services and weekly prayer meetings later on.

This is prize night at the Royal. Be on hand and bring all your coupons.

ELKS PARADE IS
FEATURE OF
SHOW

New And Novel Stunts Provoke
Hearty Laughter.—Douglas
Defeats Bisbee In Big Base-
ball Game.

In justice to the gentlemen composing the committee on arrangements for the great Elks celebration it must be said that it was the finest from every standpoint and the most creditably conducted affair of its kind ever seen in the Warren district. The parade arranged by these same members of the local lodge of the B. P. O. E. was a procession such as is seldom seen anywhere, and has never been surpassed for clean, refined humor and a desire to give the public a good laugh.

One need not consider for a moment that this year the committee had only one week in which to prepare for the big event, because it is the consensus of opinion that the celebration surpassed all efforts on the part of the earlier herd in the past. The gentlemen who composed the committee and worked out the numerous details connected with the big event were: R. A. Kirk, manager of the Evening Miner; Joseph H. McKeen, secretary of the Elks club and E. W. Spaul, assistant cashier of the Miners and Merchants' bank. It is but fairness to say of these gentlemen that they not only upheld the reputation of the B. P. O. E. as a fraternal organization, but they added many laurels to the crown of that organization by the new and original stunts presented.

Without exception James Nichols, familiarly known throughout the district as "Jimmy," carried off the prize in his pantomime with a wax figure. Dressed in the height of fashion he drove a long and handsome buggy having by his side a woman in wax, yet with a Chesterfieldian grace he doffed his silk hat to acknowledge in the large crowd and explained to his honey bunch the situation in a manner which many of the local swains could copy to good advantage.

The charlotiers representing Bing Ring's circus and Pawa Ticket Bill were certainly the candy. "Daddy" Walsh driving a pair of old skates attached to a scraper, and Jean Mosher doing the same feat could make a hundred dollars a minute posing for some anti-fat advertisement—always remembering that "Daddy" should pose for the "before taking" part.

In the jail on wheels were confined miscreant Elks, who, prompted either by instinctive laziness or a desire to hide their unhandsome forms, knowing that they might be cartoned, stood on the sidewalk among the spectators until the parade among the lay spectators, until they peared on the scene. With a set of "bullets" made up of Sheriff Jack White, City Marshal Hascal Spodgrass, Deputy United States Marshal Foster, Constable Twomey, Deputy Sheriff Dell Lewis, Robert Anderson, Thomas Dolan, and Officer Jack O'Laughlin, there was no fear that any bets would be overlooked. On the other hand it was necessary for E. J. Everhardy to bring four affidavit men to prove that he was not an Elk, and therefore did not deserve to be thrown in.

The beauty section of the parade caused roars of laughter. M. J. Cunningham carried several of the beauties in his machine, while W. J. Edleman hauled the rest of the prettiest. When this section of the parade left the big club house the Elks who had forsaken single blessedness and took unto themselves wives to whom they had lied during the past week with a facility that would in-

WATER SUPPLY

SHORT AWHILE

Pump At Naco Broke Down
Sunday. Mains Full Again
Late Yesterday.

For about twenty-four hours, including the later part of Sunday and the greater part of Monday, nearly any old kind of water was at a premium in Bisbee. The cause of the dry spell was the break down of one of the pumps of the Bisbee-Naco Water Company. Immediately upon learning of the accident the company brought to bear every available resource in an effort to repair the break at the earliest moment possible. This was of such a serious nature, however, that it was not until six o'clock yesterday that the town had the normal supply of water to draw upon. A. M. Martin, for the company, was at the scene of the trouble doing what he could to hurry the repairing of the pump.

After the break at Naco the water supply of the city gradually failed, those in the higher parts of the city, of course, suffering from shortages first and the business section later on. Meantime the people of Bisbee and the other points supplied by the company made a shift as best they could from their private tanks and springs. The lively stables of Bisbee used the spring that has recently formed at the foot of Quality hill for watering their horses, and quite a number of people got water from the same source.

Should a fire have started during the shut down it might have resulted disastrously, but fortunately no such accident occurred and the "bottle" in the water supply was passed with a minimum of inconvenience and loss.

dicte past offenses, trembled in their shoes. Some of them appeared yesterday with less wool on their craniums than had been evident before and in several cases the victims did not have the hairdo ornaments to lose. However Wallie Schwartz put all of the other beauties in the background and would have been a perfect lady had he not insisted on smoking a "Child's" cigar.

The big herd of Elks made an impressive appearance and showed the strength of the local lodge. A. L. Manahan as the marshal, attired in the suit of a statesman, also proved a big favorite with the hundreds who crowded the line of march.

On account of the high wind which sprang up early in the day the baseball game was not as good an exhibition as was expected. The local boys showed lack of practice while the visitors did not play up to the standard which they had formerly maintained, but this can, no doubt, be ascribed to the wind.

The first man to the bat for Douglas connected with the first ball thrown by Boswell and before the spher came back the center and left fielders of the local team had had considerable exercise. The smoke cleared away he was sitting on third base singing "I want to get home."

In spite of this, however, Boswell settled down and pitched a fairly good game, which would have shown better in the result had not his backing in the reserve mostly of fellows too tired to hang on to the ball.

The star mis-play of the game came when Bisbee had three men on base with no one out, and they were retired without a batsman ever striking at the ball. All of the base runners got funny or nervous, and before the smelter city aggregation was finished showing them the errors of their way the local aggregation was retired.

As a matter of fact Bisbee and Douglas can play better ball and the main thing for the local nine to insist on being practice, while the Douglas boys had better cut down their record of twelve errors.

Following is the score:

1 2 3 4 5 6 7 8 9
Douglas 3 0 4 3 6 0 9-1
Bisbee 0 0 2 4 0 1 1-8

LAND CO. ORGANIZED.
Col. Frank M. Watts was in Douglas yesterday returning to La Questa in the evening. He has been spending several days in Cananea where Thursday the Wheeler Land company was incorporated. The officers of the new company are: Geo. F. Wheeler, president; T. L. del Castillo, secretary; Frank M. Watts, vice president and general manager; A. Balderrama, agent. The company acquires the land belonging to the Francis D. Wheeler estate, consisting of 1,650,000 acres, situated around Naco and El Tigre. This is one of the finest sections of land in Northern Sonora.—Douglas International American.

"J. M. BURNETT."

"HELL WAS RAISED,"
SAYS JUDGE BURNETT

(Phoenix Democrat.)

Judge J. M. Burnett has for some time borne in silence as hundreds of others have done the nocturnal rowdiness that prevails in some of the Main street saloons.

Having reached the limit of his endurance, as many others have done, Judge Burnett in a public communication today calls the attention of the city officials to a condition of affairs needing their prompt attention.

What Judge Burnett says is being said by dozens of others, but he is the first who has dared to bring the matter to official attention over his own signature. This is what Judge Burnett writes:

"Do you know that drunkenness of the wildest and noisiest kind has undisturbed charge of the business part of this city at night? Does our temperance mayor know it? It is known to the peace officers, that it is the rule of the disreputable saloons of the main part of the city that from 10 o'clock p. m. until 5:30 o'clock a. m. all restraint is off?

"Night after night hundreds of citizens and transients, who are obliged to live down town, in the hotels, rooming houses, and apartments in business blocks, are compelled to lie awake and listen to yelling, screaming, alleged singing, swearing, loud, obscene language and vulgar noises of all kinds, together with vulgar actions.

"And all this within a block of the sleeping shrewderly on the west only one block away. And the constabulary, like Sheridan, twenty miles away.

"Last night there was a gang of bedlamites at the Anheuser place on Washington and Center street, and until 5:45 this morning. Hell was raised, and it was hell for an entire night for those who had to listen to it.

"The Anheuser is not the only place of which complaint can be made, but it is the worst one.

"The board of trade is making an effort to raise a large sum of money with which to advertise this city in the north and east. Until the board of trade can promise in its advertisements that the laws are enforced here to the extent that peace is preserved there will be no sense in inviting people to come here to live.

"I am not a temperance man, nor an anti-saloon man, but I am unalterably opposed to disturbance of the peace, whether that disturbance is by the Mexican shouting 'Viva la Medico' and thereby is sure of arrest, or by the fancy gang in a saloon on Washington street, at an unseemly hour of the night or morning murdering the Holy City, sure of non-interference by the peace officer who is diligent in the first instance.

"J. M. BURNETT."

THE MINERS' STORE

Opposite Depot

THE GREATEST
GOLD AND SILVER

Excitement is now going on at the Clifton Morenci District. Prospectors are rushing in to get locations somewhere around that district.

Bacon, the assayer here, and the Campbell boys and Longerman are now quarrying a 41 ft. ledge that runs hundreds of dollars to the ton in Silver and Gold and shipping it daily to the Shannon Smelter. Reece Webster is hauling the ore.

The Clifton Gold and Copper Co. is also on the same ledge, and just as soon as we get enough money, which will not be long in coming now, we will erect a mill.

There are ledges in that district where every rock shows free gold, and we think that the Nevada country will not be in it with the Morenci and Clifton district.

Recent assays ran 129 ounces in silver and 30 ounces in gold on our Copper properties. The Oregon shaft is down now about 40 feet all in ore, while the Santa Rita shaft, is all in high grade ore: just a few steps from the Coronado Railroad, and near the wagon road, that runs 46 per cent in copper.

Now is your time to buy shares at 50c. It will advance to \$5.00, as the boom is now on in the district that has been held back by the big companies saying they had everything that was good.

James Brogan is our agent at Bisbee. (In Justice Hogan's office.)

The more you buy the richer you will be in a very short time.
